

Established 50 years ago, Somerset West Community Health Centre (SWCHC) is a non-profit, community-governed organization that serves more than 18,000 people each year.

SWCHC supports people and communities to enjoy the best possible health and well-being by providing health and social services. We do this by removing barriers to accessing services for people who are vulnerable because of their age, income, ability, sexual orientation or gender identity, and language or culture. We work alongside community members to make our neighbourhood and our city an even better place to live.

WE BELIEVE...

Diversity makes our community stronger.

We are all connected and Everyone Matters.

Health is a state of physical, mental, social and spiritual well-being.

Health equity is key to inclusive, healthy communities.

Working in partnerships makes our impact more powerful.
